Chijioke Ezeh

Front End Developer

1 Aborisade street ojo, Lagos Nigeria. **(+234)8103214740**

chijioke1ezeh@gmail.com   WhatsApp   LinkedIn

I am a front-end developer focused on creating user-friendly interfaces. I build dynamic web applications with react and I am always eager to further enhance my skills in crafting engaging user experiences.

Experience

June 2023 – Present

Front End Developer | Edustipend, USA, CA (Remote)

> Using React, I am required to build UI components and features that satisfy the design and product requirements.

> I work and collaborate closely with technical leadership, product designers, the product managers and the backend team.

> Develop and write unit tests which align with the team's defined software development process.

> Contribute to the development of the component library system using Storybook.

March 2022 – March 2023

Front End Developer/Tutor | Robs Hub, Akwa Ibom, Uyo (NYSC)

> Keep the office space up and running.

> Tutor students when they are available.

> Manage other staff.

September 2022 – January 2023

Front End Developer Intern | HNG (Remote)

> Maintained understanding of current web technologies and programming practices through continuing education and participation in tasks.

> Wrote code using specific programming languages and tools.

> Completed tasks before deadlines and finished as a finalist.

Education

September 2015 – January 2022

Bachelor of Technology in Information Technology. Second class upper division

Federal University Of Technology Owerri, Nigeria
